Please note that there is approximately a 5-day lead time on this product.

The Premier’s automatic Tab Tensioning System delivers perfect picture quality with its perfectly flat viewing surface. Steel case and special tensioning dowel are finished in flat black. The Premier’s motor is mounted inside the roller on special vibration insulators, so it operates smoothly and silently.

Features

- Draper’s Tab Tensioning System holds the surface taut and wrinkle-free.
- Delivers outstanding picture quality even with sophisticated data graphic projectors.
- Projected image is framed by standard black masking borders at sides.
- Meets the exacting requirements of large-screen video and data projection.
- Motor-in-roller is mounted on special vibration insulators so it operates smoothly and silently.
- Available with a ceiling trim kit for ceiling recessed installation.
- 12” black drop is standard.
- With optional control accessories, it can be operated from any remote location.
- Available surfaces: M1300, M2500, HiDef Grey, or Cineflex rear projection viewing surface.
- Black case.
- Warrantee for one year against defects in materials and workmanship.
